Filtering Facepiece Respirators 3M™ Particulate Respirator 8200, N95

The 3M[™] Particulate Respirator 8200, N95 is now made in the United States* and the one to choose when you need a lower cost respirator that offers NIOSH certification for use in a variety of dusty applications.

At 3M, we design our respirators with your needs in mind. The 8200 is one of our most economical filtering facepiece respirators, yet has all the quality and world-class technical support you'd expect from 3M.

3M[™] Particulate Respirator 8200, N95

Quality, Lightweight, Economical

Rely on the Quality Construction of the 8200

- Patented 3M filter media with advanced electrostatically charged microfibers helps make breathing easier for enhanced user comfort.
- Two-strap design with dual-point attachment helps provide a secure fit.
- Adjustable nose clip and comfortable nose foam help reduce eyewear fogging and allow for a more custom fit.
- **Lightweight construction** enhances worker comfort and may increase wear time.
- Meets NIOSH 42 CFR 84 N95 requirements for a minimum 95% filtration efficiency. TC-84A-4271.

Choose the 8200 for Respiratory Protection in the Following Applications:

- Bagging
- Sweeping
- Grinding
- Woodworking
- Sanding
- Other dusty applications
- Sawing

A Cost-Saving Solution

You don't have to sacrifice reliability, quality or service just to save on your protective equipment. With the 3M particulate respirator 8200, you get the product you need at an economical price—all from a company you know and trust.
