

## Diverse Electronics Achieves ISO 9001:2015 Certification

**June 1, 2017 – Diverse Electronics** is proud to announce that it is now ISO 9001:2015 certified. The company received its certificate this week from the British Standards Institute (BSI) confirming its registration under ISO Standard 9001: 2015.

“Businesses have to adapt to meet the growing needs of customers,” said Rick Masciotra, President of Diverse Electronics. “Diverse Electronics’ decision to become ISO 9001:2015 certified is a proactive one that not only anticipates the demands of our customers, but also demonstrates our commitment to providing quality products and services.”

To become ISO 9001:2015 certified, Diverse underwent an evaluation process that included quality management system development, a management system documentation review, pre-audit, initial assessment, and clearance of non-conformances, all of which work to identify corrective actions that eliminate non-conformance to the quality management standard.

### About ISO 9001:2015

ISO 9001 is the world’s most popular standard for quality management. ISO 9001:2015 is the first major revision of the standard since 2000, and it has been written with today’s business challenges in mind, and for organizations of any size in many different industries. The changes to the standard make it flexible enough to offer multiple benefits to organizations not only as a quality management tool, but a significant framework for business improvement, delivering efficiencies and improving customer satisfaction.

### About BSI

BSI (British Standards Institution) is the business standards company that equips businesses with the necessary solutions to turn standards of best practice into habits of excellence. Formed in 1901, BSI continues to facilitate business improvement across the globe by helping its clients drive performance, manage risk and grow sustainably through the adoption of international management systems standards, many of which BSI originated. With over 80,000 clients in 172 countries, BSI is an organization whose standards inspire excellence across the globe.
