

Diverse Electronics Now an Authorized Distributor of Raltron Frequency Control, RF Wireless Antenna and RF Connector Products

Diverse Electronics is very pleased to announce it is now an authorized distributor of Raltron Electronics. Raltron is a global leader and renowned innovator in the high performance frequency management, RF wireless antenna, RF connector and cable assembly markets. Headquartered in Miami, Florida, with its on-site R&D and manufacturing facilities, the company is proud to offer the widest product range available, competitive pricing and local engineering support.

“Diverse is especially pleased to be able to add Raltron to its already high-calibre line card,” said Rick Masciotra, President of Diverse Electronics. “Raltron has a very strong reputation in the industry and, because they manufacture their own products, they are able to add that extra level of quality control and at a better price point – savings that we’re able to pass along to our customers.”

In addition to the company’s high-end products and competitive pricing, Raltron is also able to offer attractive lead times and local engineering support. Standard product offerings include crystals and oscillators, ceramic resonators, filters, antennas, RF connectors and cable assemblies. The company is also able to offer an extremely fast turnaround on locally-manufactured custom crystal/silicone solutions. Used in copious applications, these components mainly span across the consumer, IoT, smart metering, security, server/storage, medical and automotive categories.

About Raltron Electronics

Raltron Electronics Corporation manufactures and markets frequency management devices. The company offers antennas, bandpass filters/duplexers, clock oscillators, crystal filters, crystals, oven controlled crystal oscillators, resonators, surface acoustic wave resonators, synchronization modules, TCXOs, voltage-controlled oscillators and PLL synthesizers, and VCXOs. The company's products are used in digital audio broadcasting, Bluetooth, fiber optic, gigabit Ethernet, WLAN, and chipset cross reference applications, as well as oscillators for synchronization chipsets. It offers its products through a network of representatives and distributors in the United States and internationally. Raltron Electronics Corporation was founded in 1983 and is headquartered in Miami, Florida.

About Diverse Electronics

Founded in 1993, Diverse Electronics is an authorized stocking distributor of electronic components, production tools and equipment, and industrial components. ISO 9001:2015-certified, Diverse Electronics distributes products from an extensive range of more than 100 world-class manufacturers, resulting in the largest available inventory in Canada. The company also offers flexible material management programs to help customers address the industry's rising material acquisition costs.
