

## Diverse Electronics to Distribute Extech Instruments

**June 20, 2013 – DIVERSE ELECTRONICS**, Montreal, QC, has announced an agreement to distribute the full line of **EXTECH INSTRUMENTS**, Test and Measurement Tools. Extech, a **FLIR company**, has been providing meters for more than 40 years. Known for the Extech Advantage™: Innovation, Selection, and Support, Extech offers products such as meters, scopes, P/S, thermal cameras, calibrators and much more....

Diverse Electronics celebrating 20 years in the Industry completes another addition to their test Instrument lineup. "The addition of the Extech product line will allow us to serve customers in the industrial and electrical markets like never before," said Rick Masciotra, President. "Their meters can be used everywhere from home inspection to water management systems. With the addition, Diverse has further proven its role as a key player in the Test & Measurement market.
