

Green-Lite™ Illuminated Magnifiers Named 2012 Edison Award Nominee

January 19, 2012 – Green-Lite LED magnifiers from O.C. White have been nominated for the 2012 Edison Awards, one of the highest accolades a company can receive in the name of innovation.

O.C. White's U.S.-made Green-Lite series feature next generation surface-mount LEDs which produce more light with less glare, consume less power, and last longer than traditional LED magnifiers. The 8-watt LED array is comparable to a 150-watt halogen. The new technology quickly pays for itself through lower operating costs, longer lighting lifespan and improved productivity.

Green-Lite™ Advantages:

- Made in the USA
- Latest lighting technology
- Unrivaled energy savings
- Higher magnification with greater clarity
- Superior arms and holding power
- ESD safe and RoHS compliant
- Fast return on investment
- Lower total cost of ownership
- 10-year mechanical warranty
- 5-year/ 50,000 hour pro-rated LED warranty
