NEW! 770005 Charged Plate Analyzer

Evaluate the Performance and Functionality of Ionizers

- 6" x 6" Charged Plate Analyzer
- Customizable Measurement Capacitance
- Programmable Discharge Time Mode Thresholds (1 to 1000V in 1V Increments)
- Peak AC tests the offset voltage (balance) between the positive and negative air ions output by an ionizer
- Voltage Follower Technology
- Large Signal Bandwidth: DC to 10Hz
- CE Marked
- NIST Calibrated
