'ALCOHOL FREE' SANITIZER

I.C. HAND FOAMING SANITIZER

NSF Certified Category E3

ICHS-20

ICHS-GAL

ICHS-50ML

Foaming Sanitizer formulated with Benzalkonium Chloride

	MRSA	Staph	E. Coli	Salmonella	Pseudomonas
15 Seconds	99.99%	99.99%	99.99%	99.99%	99.99%

ALCOHOL FREE SANITIZER

I.C. Instant Foam Hand Sanitizer is based on the active ingredient Benzalkonium Chloride in a unique non drying, moisturizing and conditioning formulation. Kills 99.9% of most common germs that may cause illness in just 15 seconds and is NSF approved E3 for no-rinse hand sanitizing for food handlers.

I.C. Foaming Hand Sanitizer has a distinct advantage over gelled alcohol hand sanitizers. While both product forms are fast acting and allow for use without water or towels, our product gives the added benefits of being 'Non-Flammable', less drying to skin and will not stain clothing. Alcohol Hand Sanitizers can actually become less effective with repeated use and make the skin dirtier, not cleaner due to removal of protective natural skin oil and entrapment of dead skin cells by the polymer thickeners used in gelled alcohol products.
