

# ATTEN AT-E201

## Unsoldering Tool

### Features:

1. Anti-rust spring pull-type design, strong vacuum power for high efficiency in tin removal
2. Ensured by an oil-sealed piston, no air leakage
3. User friendly, typical of a PVC-rubber-foam-made handle, avoid slip off the hand due to sweat
4. Compact size, different from other pumps, users can remove the solder residue without the help of another hand
5. Built-in tip for easy replacement
