

Geehy Achieves TÜV Rheinland ISO 26262 Automotive Safety Certification

The ISO 26262 standard is the "universal guideline" for the global production of safe vehicles and is one of the entry thresholds for automotive supply chain manufacturers.

Passing the ISO 26262 functional safety management system certification undoubtedly shows Geehy's determination and ability to conform to international standards.

With the implementation of this international product standard system, Geehy will insist on outputting high-quality and high-stability products in the future. ” ”
