

Static Disipative Bottles & Containers

Our exclusive static dissipative spray bottles are the only ESD spray bottles in the world!

ESD Safe Square Bottles have a wide mouth for liquid chemical or dry storage. Easy filling and dispensing. Space saving shape.

ESD Safe Round Bottles. Useful for Storage, Packaging and Shipping

Spray Bottles: SMB-2-ESD 2oz Spray Mister Bottle, SMB-8-ESD 8oz Spray Mister Bottle, SMB-16-ESD 16oz Spray Mister Bottle, SCB-32-ESD 32-oz. Spray Bottle. SCB-16-ESD 16-oz. Spray Bottle

Storage Bottles: SQB-4-ESD, 4oz Square Bottle w/Lid, SQB-6-ESD 6oz Square Bottle w/Lid, SQB-8-ESD 8oz Square Bottle w/Lid, RSB-2-ESD 2oz Round Bottle w/Lid, RSB-8-ESD 8oz Round Bottle w/Lid, RSB-16-ESD 16oz Round Bottle w/Lid, RSB-32-ESD 32oz Round Bottle w/Lid, CTAL-ESD 16-oz. Catch All Container

Tip Tinner “Lead Free” RoHS Compliant

All the major manufacturers of soldering tips have one thing in common, they all recommend that you “Tin Your Soldering Tips”. I.C. Lead Free Top Tinner has been formulated to prolong soldering tip life in the harsh environment of No Clean and Water Soluble Fluxes.

• NO HALIDES • RESIDUE FREE • ROSIN FREE • ENVIRONMENTALLY SAFE

Antibacterial Micro Fiber Cloth

Our lint free antibacterial micro fiber cloth kills germs on contact. Safely removes dirt, dust, and fingerprints. Grade “A” micro fiber won’t scratch screens or lenses. Works great with our workstation cleaner. Available in 12” x 12”

ESD Lamination Sheets

Our 10ng Laminating sheets will work with any standard document laminating system. Available in 8.5” x 11” and 12.25” x 17”

Industrial Sunscreen is formulated with **Natural Zinc Oxide** and provides a physical barrier to UVB and UVA Ultraviolet Rays. All other active ingredients have to chemically react inside your skin to protect you.

When is the Sun Damaging? The Sun is damaging all day everyday. What’s the difference between UVA and UVB Rays? Both rays are damaging. UVA Rays damage beneath the skin which can cause severe Cell damage and Cancer. The UVB Rays damage the top layer of the skin which causes you to burn. The Darker your skin, the less damaging the sun? The Sun is damaging to everyone no matter what skin type. Which could be potential early warning signs of skin cancer? The potential warning signs of skin cancer are moles that change colors, small and rough scaly patches, and a small, pearl-colored bump.

Our Environmentally Friendly Packette replaces the Environmentally Un-friendly Sunscreen wipes. The Paper Bottle Packette is made up of green recycled material that once opened, can be closed and used a second time. This means to the outside worker that he/she is only throwing away one recycled package, rather than tossing big pieces of toxic packaging, ultimately damaging the environment.

It has been proven by the Environmental Working Group, www.ewg.org out of Washington D.C., that **Natural Zinc Oxide** provides the best protection against the suns rays.

All Sunscreen products are made by R&R Lotion in the USA and manufacture under FDA Regulatory Guidelines.

SPF 30+ UVA High Sunscreen

It an is an Oxymoron. Nearly 10,000 people will die of Skin Cancer this year. Approximately 1,000,000 new cases will be diagnosed in the next 12 months. Sunscreen is available in: LipBalm, 1 oz tube, 2 oz, 4 oz, 8oz, 32oz, gallon, and .25oz Individual Packets. 32oz Wall Bracket also available.

“BUBBA TESTED”

Industrial Pregloving Lotion

Industrial Pregloving Lotion kills germs and is formulated for people who work with their hands all day. Absorbs and moisturizes dry and rough hands with vitamins A, D, and E. It relieves skin cracking, peeling, and roughness. Helps to kill germs in leather or canvas gloves.

Compatible to use under Nitrile or latex gloves and can also be used in conjunction with an alcohol based sanitizer.

WARRANTY: All R & R Lotion products are sold with the understanding that the purchaser has independently determined the suitability of such products for it’s own purposes. At no time does R & R Lotion assume responsibility for claims beyond the replacement value of our products.

R&R LOTION

PREg LOv INg AND MOISt URISINg HAND LOt IONS

y OUR SOLUt ION FOR Hand Hygiene Problems g loving Issues Contamination and Static

What Makes Our Lotions Different

No Silicones

- Can cause pores and skin irritation.
- May keep Sebum, Dirt and Bacteria inside the skin

No Lanolins

- Derived from Wool Wax and can repel moisture from the skin surface
- Can also cause allergic reactions
- May cause Chronic Eczematous Dermatitis

No Mineral Oils

- Cannot be absorbed into the body
- Seals the skin, clogs pores, attracts dirt and pulls essential minerals from the skin
- In addition, it destroys the integrity of latex gloves

No g lycerins

- Can draw moisture from the lower layers of the skin and hold it on the surface, which can dry the skin from the inside out

No Parabens

- Parabens are preservatives and used in most lotion formulas as a way to extend shelf life
- They are not acceptable in Europe and Japan
- Parabens can act like excess estrogen which can develop reproductive cancers (like breast and uterine cancer)

Manufactured with Purified Water

- We only use purified water (Deionized Water) which takes all mineral ions, impurities, trace contaminants, calcium and salts out of the tap water and makes it ultra clean. Since water makes up over 90% of any lotion, it is imperative that the lotion be manufactured with the leanest, most pure water

Pregloving Fragrance Free Lotion

Fragrance and dye free with aloe vera and vitamins AD and E. This natural formula helps to relieve dermatitis, skin flaking, chapping, irritation and sensitivity cause by regular use of latex gloves. This non-petroleum non-contaminating and greaseless formula absorbs immediately into the skin without interfering with grip or dexterity. Meets clean room requirements down to class 1. Formulated for use in the electronic, clean room, pharmaceutical, medical and food environments where any contamination is unacceptable. Our natural lotion is paraben free and contains no irritants such as silicones, lanolins, mineral oils and glycerins. The lotion has been extensively tested with latex gloves and will not breakdown the integrity of the glove causing tearing or ripping.

32oz Wall Bracket is also available

32oz Wall Bracket is also available

Pregloving Antibacterial Lotion

Pregloving antibacterial lotion uses the active ingredient triclosan which will kill germs and bacteria. Bacteria and germs will weaken the human immune system, which then opens the door to a person becoming more susceptible to viruses. Pregloving antibacterial lotion is a natural, one of a kind moisturizing lotion that is both antibacterial and antimicrobial. This natural, purified, water based formula is used in the medical, pharmaceutical, clean room, dental and industrial industries to protect workers against common germs. Latex, Nitrile, Vinyl, Leather and Canvas are the most common materials used for gloves, and can be attributed to severe skin damage such as redness, chapping, blisters, dermatitis, and hypersensitivity in I and IV. Our lotion will help the worker relieve these symptoms while moisturizing the skin with aloe vera and vitamins AD, E. All of our lotions are paraben free and are compatible with a CHG Wash that is used commonly in the medical industry.

IC Alcohol Sanitizer

IC Alcohol Sanitizer is formulated with 63% ethanol alcohol that immediately destroys most bacteria and viruses that it contacts. Our alcohol sanitizer contains no glycerins and will not contaminate products. Use only a dime size amount on your hands and keep out of the reach of children.

I.C. Antibacterial Hand Cleaner

I.C. Antibacterial Hand Cleaner a neutral, mildly cationic, antibacterial, hand cleaner formulated for use in the electronic, clean room, pharmaceutical, and food environments where any type of contamination is unacceptable. Regular hand cleaners contain soap, along with silicone, lanolin, and mineral oil, which will cause contamination. Also available in 55 Gallon Drums.

I.C. Workstation and Mat Cleaner

I.C. Workstation and Mat Cleaner, a low-ionic, general purpose workstation cleaner, is biodegradable, alcohol-free, and odorless. Formulated for use in electronic, clean room, and pharmaceutical environments. A unique formulation that is mildly cationic to effectively neutralize any static charges. Meets the requirements for SARA Title 3, T.S.C.A. and ESD TR20.20-2000. Also available in 55 Gallon Drums.

Our 16oz. and 32oz. Spray Cleaner and Topical Antistat Spray are packaged in ESD Safe bottles

I.C. Topical Antistat Spray

IC Topical Antistat is a general purpose antistatic agent. Used to eliminate static charge buildup on plastics, boxes, carpets and other static generating materials. Shipped to you in ESD Safe Bottles at no additional charge. Helps to meet ESD-TR20.20-2000. Also available in 55 Gallon Drums.

Shipped in Antistatic Spray bottles

64oz Pregloving Hands Free Dispenser Controls Cross Contamination

Electronic infrared eye activated, this newest innovation in dispensing technology delivers precise amounts of lotion, cleaner or sunscreen into the palm of your hand, preventing cross-contamination and eliminating waste. Virtually clog-free due to dispensing nozzle being an integral part of each refill. Put in a fresh refill, get a brand new nozzle! Refills for all Lotions, Sunscreen, and Cleaners, sold separately. Battery operated; two C size 1.5V batteries not included.

Clean Room Safe Static Dissipative Bottles

- Static Free •Non-Greasy •No Tertiary Amines •Humidity Independent
- Average Surface Resistivity of 10⁹ to 10¹⁰ Ω/Square • Helps to Meet ESD-TR20.20-2000

R & R Lotion has developed a new process of molding polyethylene bottles utilizing a concentrate that does not contain any Extroxylated Tertiary Amine, which is widely used as an antistatic agent. These ESD safe bottles have an average surface resistivity of 10⁹ to 10¹⁰Ω/square and do not have any less desirable features associated with surfactant laden material. These bottles will dissipate a static charge of ±5000V in less than two seconds at 40% relative humidity. By their chemical nature, they will not have any chemical reactivity with solvents as TCE or alcohol. The pH of the deionized water solutions tested were that same before and after a seven day period. No color change or any other physical change was noted for any solvents tested. Competitively priced with existing static generating containers.

Standard Dispensers
