## PREMIUM QUALITY TOOLS BUILT FOR HIGH-PRECISION JOBS

ESD-SAFE • ERGONOMIC • USA-MADE • BUILT TO LAST

### SHARPER, STRONGER AND MORE COMFORTABLE. INVEST IN THE TOOLS THAT GET THE JOB DONE RIGHT THE FIRST TIME.

#### CUTTERS

- Hot-forged premium alloy steel edges honed to exact accuracy using advanced technology ensure a clean cut every time
- 1,000,000 cut lifetime when used to spec
- Complete range of heads, tips and edges
- Sizes to suit task and user hand size
- Ergonomic Soft Touch handles

#### PLIERS

- Welded connections and adjustable double-leaf springs ensure consistent pressure and minimize pressure on the hand
- Complete range of heads, tips and edges
- Sizes to suit task and user hand size
- Ergonomic Soft Touch handles

#### FEATURES:

- **STRONGEST** – Forged out of high-chromium, high-carbon, 52100-grade ball bearing steel → *uncomparable durability and long life*
- **SHARPEST** – Induction-hardened (HRC65) cutting edges → *ensuring a clean cut every time*
- **MOST COMFORTABLE** – Patented Soft Touch ergonomic handles along with tool sizes and handle shapes for every task and hand size → *reduced strain and increased productivity*
- **ESD SAFE** – All tool handles are static dissipative → *no risk of static discharge damage to component*

#### HANDLES

**Traditional Short:**  
Used in less repetitive tasks  
and in confined spaces

**Double Ergonomic:**  
Longer handle disperses  
pressure from the hand

**Pistol Grip:**  
Maintain wrist alignment  
and ideal for repetitive tasks
